

# SECURITIES IN GOOD DEMAND

Stocks Move to New High Records—Philip Morris Prominent Feature

NEW YORK, April 20.—There were important developments on the stock market today. A large number of stocks moved up to new high records, and there was a general increase in the demand for various groups which have been in interest in the recent trading.

Philip Morris was one of the prominent features, that stock moving up 1 1/2 points, to 10, a new high record in trading, the buying being wholly by the interests in the group. Durant Motors, another group, moved up to above a new high record. Hudson Tube also made substantial advances, and Manhattan common ranged from 11 1/2 to 13 1/4, and Hudson preferred advancing from 10 1/2 to 11 1/4.

Motorstock was bid for in large quantities and sold at 24 1/4. Electro-Battery was another strong mover up to 44.
